Look

hand-crafted expressiveness

Two saturated shades – Verde and Turchese – and neutral Lino extend the colour assortment of the Look collection's plain tiles, inspiring fresh combinations with Ragno's stone-, wood- and concrete-effect surfaces. The straight-edged brick tile of 6x24 cm underlines this industrial product's hand-crafted character and is equally ideal for cladding facades or for installation on walls and floors.

The new 3D Yubi Structure, inspired by the traditional oriental "fingers" mosaic of slightly rounded relief bars, is produced in the 3 new colors and a selection of existing shades – Bianco, Oliva, Avio and Blu. In this mosaic, the 6x24 cm size appears to be subdivided into three bars, with a very rounded ingot shape. The piece's patterning is also in three sections to reinforce this division, with irregularities along the edges of the scored lines.
